

# Bionic alpha

Bionic alpha - the smart long range system!

This long range locator detects gold, silver and diamonds up to a maximum distance of about 500 m and a depth of about 5 m.

The BIONIC alpha combines 3 searching systems in one device.

**Bionic System** - works with the help of the natural bio-energy of human beings.

**Ionic System** - is able to trace ion fields around buried gold objects.

**Magnetic System** - can detect ferrous metals by measuring magnetic fields.

## Technical Specifications:

Power supply: rechargeable battery  
Indication: LCD Display  
Voltage: 9 Volt  
Operating time: about 1,5 hours  
Feedback: audible, visual  
Maximal range: 500 m / 550 Yard  
Maximal penetration depth: 5 m / 16 Foot
